

Application form Initial Research
study course Computer Science for Digital Media (PV 20)

Name, first name: Prasad, Pooja Matriculation number: 125466

Date of birth (YYYY-MM-DD): 1998-01-12

Place of birth: Bangalore, India

Start of Initial Research: 01-10-2024

Title of Initial Research:

Analyzing the Evolution of Web Page Content Quality Using a Two-Model Framework for
AI-Generated Text Detection and Spam Classification

Topic and Methods of Initial Research:

This thesis investigates the evolution of product review quality on web pages over a two-year period by
deploying a robust two-model framework. A large-scale corpus of search query results was crawled and
parsed using Resiliparse for robust HTML text extraction. For AI-generated text detection, the approach
employs a supervised classifier trained on an external benchmark dataset, utilizing certain features to
capture stylistic markers of machine-generated writing. In parallel, spam detection is performed using a
fine-tuned BERT-based model, trained on user-provided ground truth labels, incorporating an enriched
multi-dimensional feature set. Finally, a temporal and correlation analyses examine how these quality
signals evolve, assess their overlap, and provide insights into the integrity of product reviews within
contemporary web ecosystems.

Anticipated date of registration for Master's thesis: 23-06-2025

Supervisor: Janek Bevendorff

**Application for admission to the final examination in
the study course Computer Science for Digital Media (PV 20)**

Name, first name: Prasad, Pooja Matriculation number: 125466
Date of birth: 1998-01-12 Place of birth: Bangalore, India

I hereby certify that I am currently not involved in any examination procedure, nor have I applied for and ultimately failed at any M. A. examination in the same or a similar study course.

Weimar, 20-06-2025

Place, date, signature

Proof of performance

- ☒ Security and Data Science (18 ECTS)
 - Online Computation
 - Discrete Optimization
 - Digital watermarking and steganography

- ☒ Graphical and Interactive Systems (18 ECTS)
 - Photogrammetric Computer Vision
 - Spatial Information Systems
 - Physiological Computing

- ☒ Specialization (12 ECTS)
 - Virtual reality
 - Usability Testing and Usability Engineering

- ☒ Research Project I (12 ECTS) Our Digital Limbs : Exploring full-body movements for stress measurement
- ☒ Research Project II (12 ECTS) Bauhaus Gamesfabrik 3

- ☒ Electives (18 ECTS)
 - Digital culture 1
 - Digital culture 2
 - Academic English part 1 and 2
 - Research seminar : Affective Computing

- ☒ Certificate of matriculation
- ☒ proof of English-language competence: C1 level
- ☒ proof of Initial Research
- ☒ Letter of Admission (Admission with additional requirements)

Declaration of Transfer of Rights

I hereby transfer to the Bauhaus-Universität Weimar all copyright exploitation rights relating to my completed or still to be completed dissertation on the following topic:

Analyzing the Evolution of Web Page Content Quality Using a Two-Model Framework for AI-Generated Text Detection and Spam Classification

The Bauhaus-Universität Weimar is hereby authorised to

- a) apply these rights in fulfilment of its legal duties
- b) transfer them to a third party.

This also covers the rights to any programme source codes, as well as any hard- and software produced by myself.

Should the Bauhaus-Universität Weimar decide to demand payment for this, I will be entitled to a reasonable proportion thereof. The decision on the exploitation of the rights and on the proportion of the payment to which I am entitled shall be the province of the head of the relevant Chair.

At all events, I retain the simple, non-exclusive and temporally and spatially unlimited right to the use of the results of my own work. I am aware that I may only undertake the publication of these results in any form (including on the internet) with the approval of the Bauhaus-Universität Weimar. Such approval, however, may not be declined without good reason.

Notes on the title page

- The title page with the given layout must be included in the thesis.
- Name and year must be clearly legible on the reverse of the binding.
- If possible, the title of the thesis should also be clearly legible on the reverse of the binding.
- The names of any external supervisors are not to appear on the flyleaf (covering page).
- The referees will be chosen in agreement with the supervising professorship.
